

MUNEEB UR REHMAN

React Native DEVELOPER

+92 3097091048 | Email: muneebmultan1999@gmail.com | github.com/Muneeb-baloch

SUMMARY

I am a dedicated React Native Developer skilled in building modern, user-friendly apps using React Native. I focus on clean architecture, intuitive UI design, and writing efficient, maintainable code. I also have experience with real-time databases, authentication, Git version control, and agile teamwork.

PROFESSIONAL EXPERIENCE

Fiesta Digital Solutions (Multan Pakistan) Oct 2025 – Jan 2026

- Developed and designed responsive front-end screens using JavaScript/TypeScript and React Native components.
- Contributed to end-to-end mobile application development using React Native, focusing on business logic, state management, and API integration to ensure high performance across both iOS and Android.

PROJECTS

Expense Splitting App (Group Pay)

- Integrated external APIs to manage real-time data storage and group expense tracking, ensuring seamless synchronization across all user devices.
- Implemented secure user authentication and protected group access to ensure the privacy and security of financial data.
- Designed a responsive mobile UI using React Native components to fetch and display organized group summaries for a seamless user experience.

Capacity Sync

- Developed an offline-first cross-platform application using React Native and Material Design principles to optimize task scheduling based on human capacity.
- Engineered a Smart Partitioning Algorithm in JavaScript that automatically splits tasks exceeding weekly "Working Windows," ensuring realistic deadline management.
- Architected a local-first data strategy using Async Storage for reliable offline persistence, ensuring data integrity and app functionality in low-connectivity environments.
- Managed application state and offline persistence to ensure a seamless user experience and data integrity regardless of network connectivity.

SKILLS

React Native.	JavaScript / TS	Firebase
Convex	Supa base.	PostgreSQL
API Integration/ Postman.	Git/GitHub	

EDUCATION

Bachelor in Computer Science Aug 2022 - May 2026.
University of education Lahore, Multan Campus
